- Line Striping

I was a little nervous about replacing our driveway due to there being trees in the middle of it and the cost associated with tearing out a driveway that was 37 years old and all the things that could go wrong. Bartelt did a PHENOMONAL job and was more personable and professional then I could ever have imagined. Brian the project manager did a great job explaining to me what issues popped up (which I was expecting) and did it in a manner that was so down to earth. The entire tear out team was professional, friendly, and truly appeared to enjoy their jobs. The team that poured the new driveway also amazing, friendly, professional, and all hardworking individuals. The Driveway turned out amazing, they did such a great job. I couldn't get a warranty with my driveway because of two trees in the middle of it and the whole team made sure that the driveway was solid so that it wouldn't even be an issue. Hands down the best money I have ever spent!! Yes, it was expensive, but I definitely got my money's worth. Being new to the area I wasn't sure who to call for the driveway and I am very grateful that the people at my new job recommended Bartelt. **-Hanne R.** ★★★★★
