What makes Chem-Dry a better carpet cleaner?

Healthier - A Chem-Dry carpet cleaning is proven to remove 98.1%* of common household allergens, such as pet dander and dust mite matter.

Deeper - Our revolutionary cleaning process utilizes the power of nature's chemistry to apply millions of carbonated bubbles deep into your carpets to lift dirt to the surface where it is whisked away.

Greener - We don't need the harsh chemicals or soaps other cleaners rely on. Our core cleaner, The Natural® relies on ingredients copied from Mother Nature and is safe for your family and your home.

So go ahead, live your life. We'll clean up.
